

Questionnaire (English version)

About the knowledge of the teacher about inclusive education and the teachers experience with teaching pupils with disabilities and special needs in education in Mongolia

*Vereist

Background

Inclusion will become more prevalent in classrooms in Mongolia. In order for inclusion to result in adequate yearly progress for all students with special needs in education, it must be implemented properly. A key component for proper implementation is an understanding of attitudes and knowledge regarding inclusive education held by teachers.

The purpose of this questionnaire is to investigate the knowledge and the attitudes of teachers in Mongolian schools regarding inclusive education.
